### 3. Barriers to future attainment (for pupils eligible for PP)

#### In-school barriers *(issues to be addressed in school, such as poor oral language skills)*

<b>A.</b>	Low levels of language development for disadvantaged pupils including low levels of speech and language development and delay.
<b>B.</b>	Turbulent and chaotic home lives.
<b>C.</b>	Poor emotional resilience and self-regulation skills impacts on many children's ability to work collaboratively and accept challenge in their learning.

<b>External barriers</b> <i>(issues which also require action outside school, such as low attendance rates)</i>		
<b>D.</b>	Parental engagement.	
<b>E.</b>	Pupil attendance and disadvantaged home environments	
<b>4. Desired outcomes</b> <i>(Desired outcomes and how they will be measured)</i>		<b>Success criteria</b>
<b>A.</b>	To improve outcomes of Pupil Premium pupils with regard to Speech and Language skills so that pupils are quickly identified and interventions are planned to ensure good development. The percentage of children achieving ARE in Writing needs to be in line with their peers. Pupils need support to improve their vocabulary.	Percentage of Pupil Premium pupils achieving ARE in Communication and Language in the EYFS will increase. Children will increase their vocabulary and transfer this to written work. Percentage of Pupil Premium pupils achieving ARE in Writing will increase.
<b>B.</b>	To provide enhanced support to meet the social, emotional and mental health needs of pupils across the school.	Improved Boxhall scores. Pupil progress tracking. Specialist support through counselling, group interventions and therapy
<b>C.</b>	Quality first teaching provided to target vulnerable children, alongside CPD. Pupil progress used to track progress and ensure vulnerable children make progress that is as good or better than their peers. Where necessary, provide enhanced interventions to meet the learning needs of identified individuals and close the learning gaps.	Leaders track the progress of vulnerable groups vigorously. Data to show greater progress of our most vulnerable groups. Interventions planned and monitored to track the impact. Training provided to provide the necessary skills to support the children's needs. Additional staffing provided in some of our most vulnerable cohorts to meet their individualised

<b>D.</b>	The attendance of our Pupil Premium pupils will increase and pupils will be able them to fully take part in the wider whole school curriculum, including extra-curricular activities.	Persistent absenteeism is reduced among pupils eligible for PPG. Increase in overall Pupil Premium attendance rates to be in line with the whole school attendance figure. Where necessary PPG will be offered reduced breakfast costs and support to pay for trip costs. Each family will be provided with £10 to go towards extra-curricular activities.

Welcomm screening and teacher assessments back this up. To ensure rapid progress parent knowledge and engagement is important. To ensure that pupil are 'ready to learn' as they enter KS1. The Eff states," language acquisition must be a high priority in schools, with explicit strategies for extending vocabulary as well as a language rich environment. Oral language interventions have an average impact of +5 months.</p>	<p>Regular assessment of pupils will show that the pupils are making rapid progress. Parent feedback and attendance of parents' evenings to shows an increased knowledge of how they can support their children at home with their speech.</p>	<p>SENCO EYFS leads PP Coordinator SLT Literacy coordinator</p>

<b>Desired outcome</b>	<b>Chosen action / approach</b>	<b>What is the evidence and rationale for this choice?</b>	<b>How will you ensure it is implemented well?</b>	<b>Staff lead</b>	<b>When will you review implementation?</b>

<p>Closing language barriers.</p>	<p>Specialist speech and language support. Talk Boost intervention TA trained to provide quality interventions. Frequent analysis of the impact of the intervention.</p>	<p>Early screening of children’s speech and language identifying children below expected development. Interventions in previous years demonstrate a good impact of the chosen intervention. EEF research shows that short interventions and development of independent learning skills is a value for money support. Writing: Oral language interventions which focus on spoken language and verbal interaction in the classroom appear to benefit all pupils. Some studies also show slightly larger effects for younger children and pupils from disadvantaged backgrounds. A focus on oral language skills will have benefits for both reading and writing.</p>	<p>Pupil progress meetings. Regular reviews.</p>	<p>Speech and language team. <p>Closing the gaps in reading, writing and maths.</p>	<p>Targeted interventions. Advisor support. Invest in training to support the teaching of guided reading across the school.</p> <p>Targeted sessions alongside themed activity to enhance learning behaviours. CPD for Teaching Assistants and teachers to up-skill them in the development of reading skills. Pupils to have access to high quality reading books. School subscription to Bug Club</p>	<p>The EFF guide to the pupil premium states, “ There is strong evidence showing the impact that high-quality interventions can have on the outcomes of struggling students. However, while interventions may well be one part of effective Pupil Premium strategy, they are likely to be most effective when deployed alongside efforts to improve teaching, and attend to wider barriers to learning.”</p> <p>Maths A number of projects which employ meta-cognition approaches have found positive impacts on attainment for programmes that seek to improve students’ abilities to plan, monitor and evaluate their learning: Thinking, Doing, Using Self-Regulation to Improve Writing, Changing Mindsets and Philosophy for Children. Attendance rises for all groups, particularly disadvantaged pupils.	Pupils will be offered reduced cost breakfast club. Each PPG family to receive £10 towards the costs of extra-curricular activities.	Research published by the Department for Education (DfE) suggests that children with poor attendance are more likely not to be in education, employment or training when they leave school. There is a clear link between poor attendance at school and lower academic achievement, highlighting that only 3% of pupils who miss more than 50% of school manage to achieve 5 or more A*-C GCSEs, including English and Maths, compared with 73% of pupils who have more than 95% attendance. The DfE suggest strategies such as early morning intervention and rewards for attendance as proven and effective tools in order to improve the attendance of lower attenders.
