

Miss Shuttleworth, Headteacher, DSP

I always found that I worked well with children and enjoyed helping them to develop and experience the world around them. I feel that teaching found me, as I love to help people and make things better. One of the great things about being a Headteacher is being able to support so many people - all the children, staff and adults that are linked to the school. I like to work hard, do my best and make a difference.

In my spare time, when I get any! I like to walk my dogs especially near the river and I love football, my garden, music and dancing.
