## Pupil Premium Grant and SEN Expenditure: Report 2020-2021

### Context of school

- Featherstone Wood Primary School is an undersubscribed one form entry school situated in south Stevenage. The site was originally built as a two form entry school and so has ample space and large grounds. Our intake is below national average, number on roll varies but is usually around 170, this is due to a significantly lower than average stability figure which places us in the lowest 20%. Our deprivation indicator places us in the top 40% of deprived areas nationally. The majority of our pupils come from the "Shephall" area which falls under the Shephall electoral division area which is the second poorest area of Stevenage.
- The current Headteacher was seconded as acting deputy and SENCo in September 2013 and became substantive Headteacher in January 2014. The SLT are the Headteacher, Deputy Head responsible for SEN and an assistant head responsible for curriculum .
- Due to the considerable vulnerable nature of the majority of our families the leadership identified the need of significant pastoral and nurture support for pupils and families. Developing pupil resilience and emotional maturity is key to enabling positive learning and is at the heart of the day to day provision Featherstone Wood offers.
- 28% of our pupils claim Free School Meals.
- 26% of our pupils receive SEN support or have an EHCP plan.
- 44% of our PPG Pupils are SEN.
- 16% of our pupils have English not as their first language( EAL)
- 16% of our children are from Ethnic Minority groups.
- Attendance is at 93.24%.

### Recent and New Initiatives

- The school is striving to create a positive learning culture in which everyone can reach their full potential.
- The Leadership of the school has recognised that a major barrier for many of the children's learning is their chaotic and turbulent home lives.
- The school has developed a nurture group and leader to raise the self-esteem and develop emotional awareness in our vulnerable groups.
- Mindfulness has been a strong focus for the school for the past five years.
- Staff receive training to support their understanding of the different types of behaviours, triggers and the impact of trauma – 'My World and Me' by Nessie, STEPs training, Trauma and Attachment Disorder training, SWAN training. The main ethos of the school is to be able to support and equip the staff and children with the strategies to regulate their challenging behaviours. This is reflected through the whole school use of 'The Hidden Chimp'
- The school has developed a clear pedagogical and content intent for the reading curriculum. There has been considerable investment in reading material and all pupils now have access to an individual reading book which at least matches their phonics knowledge.

# Featherstone Wood Primary School

## Pupil Premium Grant and SEN Expenditure: Report 2020-2021

- The Early Years environment has been improved to provide quality resources and a stimulating learning space to promote first hand learning experiences.
- The skills of the staff and continuously being developed through extensive training to give them the skills to provide quality first teaching.

### Objectives of Pupil Premium and SEND Spending

Our key objective in using the Pupil Premium Funding and SEND budget is to ensure that all pupils make good progress. Historical attainment for groups across the school has been low but as levels of attainment rise, we are working to ensure that there is no gap between pupil groups. Speech, Language and Communication Needs are a high incidence SEN within the school, particularly in the Early Years, with a **significant number** of children entering school with below age related language skills. Common barriers for children in receipt of FSM can be weak language and communication skills, a lack of confidence, less support at home, more frequent behaviour difficulties and attendance and punctuality issues. There may also be complex family situations which prevent children from flourishing.

Through targeted intervention and a focus on reasonable adjustments for individuals within high quality inclusive teaching approaches, we are working to eliminate barriers to learning and progression. Many children start our school with a very low baseline of attainment and our aim is to ensure they make accelerated progress in order to reach at least age related expectations as they move through the school.

We have analysed our data thoroughly and have made use of research such as 'Ofsted, The Pupil Premium, How schools are spending the funding successfully to maximise achievement' (2012), 'SEN support: A rapid evidence assessment' (2017) and The Sutton Trust Teaching and Learning Toolkit in order to help us make more informed choices about the effectiveness and impact of interventions on learning and attainment.

In addition to this we have identified some key principles (outlined overleaf) which we believe will maximise the impact of our pupil premium and SEND spending:

#### **Key Principles**

##### **Building Belief**

We will endeavour to provide a culture where:

- Staff believe in ALL children
- Barriers to learning are identified at the earliest opportunity through observation and assessment
- There are no excuses made for underperformance
- Staff adopt a solution focused approach to overcoming barriers

# Featherstone Wood Primary School

## Pupil Premium Grant and SEN Expenditure: Report 2020-2021

### **Analysing data**

We will ensure that:

- Data is analysed on a regular basis so that performance can be monitored and problems addressed early
- Staff are involved in the analysis of data so that they are fully aware of the strengths and weaknesses across the school.

### **Identification of Pupils**

We will ensure that:

- All teaching and support staff are involved in the identification of pupil needs
- All staff are aware of who the pupil premium, SEND and vulnerable learners are in their class
- All pupil premium children benefit from the funding, not just those who are under performing
- Underachievement is targeted at all levels (not just lower attaining pupils)
- Children's individual needs are considered carefully so that we provide support for those children who could be doing "even better if..."

### **Improving Quality First Teaching**

We will continue our endeavour to ensure that all children across the school receive good teaching, with increasing percentages of outstanding teaching by using our Senior Leaders to:

- Set high expectations
- Address any variance within school
- Ensure consistent implementation of the non-negotiables such as planning, marking and guided reading
- Personalising learning approaches to meet the needs of individuals with a range of needs
- Share good practice within the school and draw on external experience
- Provide access to high quality CPD
- Improve assessment through joint levelling and moderation

### **Increasing Learning Time**

We will maximise the time spent on closing the gap through:

- Improving attendance and punctuality
- Providing earlier intervention at KS1 and EYFS
- Extended learning out of school hours through early morning support and after school booster sessions

We will ensure that the additional support we provide is effective by:

- Looking at the individual needs of each child and identifying their barriers to learning
- Ensuring support staff and class teachers are given the opportunity to communicate regularly
- Matching the skills of the support staff to the interventions they provide
- Providing support for parents so that they are able to support their child's learning within the curriculum and manage in times of crisis

# Featherstone Wood Primary School

## Pupil Premium Grant and SEN Expenditure: Report 2020-2021

- Tailoring interventions to the needs of the child
- Recognising and building on children's strengths to further boost confidence
- Rigorously monitoring the impact of support and adjusting provision as needed

In our determination to ensure that all children succeed, we recognise the importance of and are committed to providing individualised interventions for set periods of time to support children in times of crisis.

### Funding priorities 2020/21

- This year, our priority is to continue to raise standards in our Early Years provision. Developing the learning environment and skills of the teaching staff. Individuals will be identified and given specialist interventions. Speech and language needs are identified early in the Autumn term and addressed through specialist interventions.
- Across the school, the impact of the Covid 19 epidemic and subsequent shut down will be a priority. Learning gaps and the emotional impact on the children's well-being. New catch-up materials will be purchased along with additional staff training.
- Across the school reading will continue to be a strong focus. Previously purchased, quality texts, will be used alongside additional texts which support the catch-up materials. In addition, the school has invested in additional training and support from the teaching and learning literacy advisor.
- The school continues to recognise that a major barrier of the children's learning is their chaotic and turbulent home lives. Nurture provision continues to be a strong focus across the school with a Nurture leader providing group interventions and a lunch time support club.
- Additional staff have been employed to support the complex needs of individuals allowing them to participate in daily school life.
- Specialist interventions, to accelerate progress of our children, will be developed through staff training, rigorous assessment and identification of individuals and quality first hand teaching.
- The school continues to develop the learning environment of the school. Investing in quality equipment to provide a stimulating environment for the children. This year, the school's outside area is being further developed to provide an outside learning area.
- This year, the school has developed its on-line learning support allowing children to access their learning through Google Classroom.
