Head Teacher – Louise Shuttleworth

Monday 20th March 2017

Dear Parents

During the Summer Term, all children in Featherstone Wood will be taking part in a Science Fair. This will be a ten week project where the children will be asked to explore a science theme. The theme of the science fair maybe set by the class teacher or planned by the child, in school, ready for them to investigate at home. The children will then need to spend the next ten weeks researching, investigating and presenting their findings. At the end of the ten weeks all children will be presenting their science learning to their class. The best example from each class will then be presented to the school.

Many of you may be aware of the shortage of children pursuing science as a career path. Through raising the profile of science and giving children positive experiences we can create a love for science and create the scientists of the future.

Thank you for your support

Mrs Franklin

Assistant Deputy Head
